

ALL-TURI 221

ALL WEATHER TIRE
PNEU TOUS CLIMATS

The All-Turi 221 All Weather Tire is designed to provide Passenger Vehicles with excellent performance in all four seasons.

- **Asymmetric Pattern:** Multi-performance harmony for balanced all season driving.
- **High-Grip Silica Compound:** Improves snow and wet traction while lowering rolling resistance.
- **Tread Pattern:** Two straight and two semi-zigzag longitudinal grooves helps to reduce ground resistance and enables a smoother ride over water and snow. This helps ensure the best wet and snow traction performance.
- **Sipes:** Designed with both summer and winter sipes to help allow the tire to possess high summer capabilities while also providing winter traction.

Le pneu tous climats All-Turi 221 est conçu pour offrir aux voitures de tourisme une excellente performance en toute saison.

- **Motif asymétrique :** Une harmonie performante pour une conduite parfaitement équilibrée en toute saison.
- **Composé de silice à forte adhérence :** Améliore l'adhérence dans la neige et sur chaussée mouillée tout en réduisant la résistance au roulement.
- **Dessin de la bande de roulement :** Deux rainures droites et deux rainures longitudinales en demi-zigzag aident à réduire la résistance du sol et offrent une conduite en douceur sur la neige et la chaussée mouillée. On obtient ainsi la meilleure performance sur neige et chaussée mouillée.
- **Lamelles :** La conception avec des lamelles pour l'été et l'hiver confère au pneu de grandes qualités pour la conduite en été sans compromettre son adhérence en hiver.
